

## Slim LED Module

### Description

The TMT LEDs Silver Series Slim LED module is designed to compete with and outperform other 3 diode economy modules in the market. The efficient design and CrystaLens optics deliver better light dispersion over large areas, requiring fewer modules per sign. Available in .72 Watt and 1.08 Watt.

### Features

- 70-120 lumens per module
- IP 67 rated
- Up to 115 lumens per watt
- Color options available
- Reliable and economical solution

### Applications

- Ideal for 7.5 cm – 22.5 cm deep channel letter
- Sign cabinets
